Can you identify the original film in the series, by the title or subtitle of the sequel? For an example of a subtitled film, 'Dead Man's Chest' is the subtitle of the 2nd film in the 'Pirates of the Caribbean' series, the full title being 'Pirates of the Caribbean: Dead Man's Chest'. Some films just have a totally different title for the 2nd film. Remember that the answer is always the first film in the series.
