# Science and Nature

This week's science and nature round is all about animals.

**1. A leveret is the young of which animal?**

---

**2. What type of animals would you mainly find at WWT Slimbridge in Gloucestershire?**

---

**3. What type of animal is Bagheera in 'The Jungle Book'?**

---

**4. As of 2017 the Queen now has two corgis and two dorgis - can you name any of them?**

---

**5. How many humps does a Bactrian camel have?**

---

**6. There are two main types of hippo - one is a common, or river hippopotamus, what is the other?**

---

**7. What is the largest living species of lizard?**

---

**8. From which continent does the guinea pig originate?**

---

**9. How many digestive compartments does a cow's stomach have? (It is often said that a cow has this many stomachs, although this is not technically correct)**

---

**10. Which fearsome-looking fish was also a hit for 'Heart' in 1977?**

---
